Changing lives for a lifetime

May 13, 2014

Dear Cherie,

I was able to attend the KidSafe class at World of Learning a few weeks ago, and I'm glad I did! It was fabulous!! Robin's energy and expertise engaged the children as they learned about personal safety. Four-year-olds learn through play, so role playing provided the opportunity for practice. Very appropriate!

Attending the graduation the following week was also a treat! It can be difficult for families to attend child care center events, but with standing room only that morning, it certainly showed the high interest! Robin reviewed the lessons for the families with the children's participation as they proudly demonstrated their new skills. I love that each child got KidSafe books so that families are able to reinforce skills and continue the KidSafe language at home.

Thank you for giving C-QuELL's child care centers the opportunity to participate in the KidSafe program. Personal Safety can be a difficult topic with difficult conversations for adults to have with children. You make it relevant, simple, clear, and developmentally appropriate. Continuing this program will help keep more children safe. Thank you!

Sincerely,

Debbie Kay
Director, C-QuELL (Community for Quality Early Learning and Literacy)
