

KidSafe
FOUNDATION

KidSafe Kid Online Safety Contract

Social media can be fun with safe and smart choices

1. I will not **give my private information** to anyone in person or online. This includes **my name, phone number, address, parent's information, my school name/location or any photos**. If I am not sure if it is personal information, I will **Check First** with my Grown-ups.
2. **My parents and I will check my privacy settings together often, because updates can change permissions.**
3. I understand that the safest place to use technology (tablet, laptop, games, phone) is in an open area of the house (family room or kitchen). I understand that my grown-ups have the right to **supervise everything I do online and look at anything I do using technology.**
4. I will **Check First** with my Grown-up before I post photos, download an app, give personal information, purchase something, or set up an account on line.
5. I will only visit sites which have been **discussed and approved** by my Grown-ups.
6. I will **report to my Grown-ups (Circle of Safe Adults)** right away if I see or receive anything (picture, snap, comment, text, video, etc.) which makes me feel uncomfortable, scared or confused. I will listen to my inner safety voice at all times while online.
7. I am not allowed to meet, play with, become friends with people online that I do not know in the real world. I understand that **people can pretend to be other people online and I will only communicate with people who my parents/guardians have confirmed to be people that we know.**
8. **I will not participate in cyber bullying. If I can't say it to someone in person than I shouldn't say it online.** If I see any cyberbullying, I will **report it to my Grown-ups or my Circle of Safe Adults**. If I am being hurt online, I will let my Grown-ups know right away so they can help me.
9. I will use technology for the **amount of time per day as set by my Grown-ups**. There are a lot of other activities to be doing than being online.
10. I will **not share passwords** with anyone including my friends. Only my Grown-ups who monitor my online activities will have my passwords.
11. My Grown-ups commit to listening to me, and helping me solve any internet question or problem calmly and supportively.
