

My Body is Special and Belongs to Me!

Color the kids in their bathing suits. All of the parts of their bodies covered by bathing suits are their private parts.

You can say:

"All of the parts of your body that are covered by your bathing suit are your private parts. Your body is special and belongs to you. If you ever have any questions about your private parts **you can ask me anything.**"

Empower your children by teaching them the proper names for their private parts!
